

## Joint Training Net September 17, 2020

Hello Everyone,

Apologies for the equipment failure tonight. Still not sure what happened - will troubleshoot tomorrow.

AI KB8RPO - Many thanks for taking over to keep the net going.

Ken N1KWG - Many thanks for going through the high points of the agenda.

The action items the group highlighted are on target.

I had in mind to make a specific proposal. CA, GM and Hills all meet on Monday nights. We could exercise liaisons to pass traffic among the 3 nets operating on 3 different frequencies from 7-8pm on a Monday night now and then. Of course, other groups are welcome to join.

I was also going to propose that N1FDR, NF1L and K1EHZ collaborate to design the first exercise and create message traffic - a few verbal messages and a few digital messages for starters.

I expect we would have to do it a few times to get the process smoothed out. But we could have some fun (like tonight??) in the process.

October is going to be fully occupied with the ARES Academy. Therefore, I suggest our next net meeting on Epsom be Nov 12 at 7pm.

So, please send me reactions to the CA-GM-Hills net idea. If it seems reasonable we can start planning the winter months.

Importantly, many thanks to the group for continuing the net so effectively tonight.

73,  
Jay K1EHZ
