

This is **callsign**, Net Control for the Greater Manchester ARES Training Net. \_\_\_\_\_ is the Alternate Net Control. *If there is no ANCS, ask for a volunteer.* All interested radio Amateurs are invited to participate. (break)

This is a directed net. Any station with traffic or comments will contact net control prior to contacting another station.

When checking in state “this is” immediately followed by your tactical call. For this net, unless otherwise assigned, your tactical call is your FCC Call sign. (break)

Please list your call sign slowly and phonetically, your first name, State “Digital” if you have FLDIGI capability and “Traffic” only if you have a real or training message to pass. (break)

The net will first take check-ins for liaison stations and ARES leadership stations outside of Greater Manchester. Please state your callsign SLOWLY, your first name, and your ARES position. Please call now.

Wait about five seconds after last check-in heard to avoid missing a station and then acknowledge mobile stations.

This is net control, acknowledging the following...

Mobile stations, please check in now.

Wait about five seconds after last check-in heard to avoid missing a station and then acknowledge mobile stations.

This is net control, acknowledging the following...

All other stations, please check in now.

Wait about five seconds after last check-in heard to avoid missing a station. NCS then acknowledges each station that checked in by its tactical call and if it is digital or has traffic.

This is net control, acknowledging the following...

Are there any check-ins that were not recognized? If so, check in now.

Do not continually ask for check-ins, after last acknowledgement, state:

If there is traffic

This is net control, [**FCC Callsign**], please list your traffic.

If a station has traffic, NCS asks that station to list it – precedence, destination, and mode (digital, voice). NCS takes appropriate action for passing the traffic

This net control, does the EC have any comments for the net?

This is net control, does the AEC have any comments for the net?

This is net control, are there any liaison updates? Call signs please.

NCS calls on stations for announcements, comments, or training.

Net Control would like to thank the \_\_\_\_ number of stations, including myself, who checked in this evening.

This is **callsign** Net Control closing this session of the Greater Manchester ARES Training Net.

As appropriate...

Thanks to:

*Bernie, N1IMO,*

*Al, K1AKS,*

*Paul, N1PA*

for the use of their repeater. The repeater is now returned to normal Amateur use.
